COURSE DESCRIPTION:

This course is designed with 1.5 onsite lecture/lab and 3.5 hours of on line learning. On line learning is available 2 weeks prior to course date, and must be completed prior to arrival of course. This course is designed to provide participants with the latest evidence for the evaluation, surgical management, and rehabilitation of shoulder disorders from the perspectives of an orthopedic surgeon and physical therapist who specialize in the treatment of shoulder disorders. Program will feature an integrated format of lecture, video, case studies, distance learning and open discussion. We have included course time to review distance learning material. Course content is supported by current evidence based research.

COURSE OBJECTIVES:

- Gain working knowledge of the anatomy and biomechanics of the shoulder and how each relates to disorders of the shoulder.
- Recognize the pathomechanics of various shoulder disorders and prognosis for rehabilitation.
- Conduct a complete evaluation of the shoulder, as well as document treatment outcomes.
- Design and implement an appropriate shoulder rehabilitation program based on the latest clinical and scientific information
- Gain understanding of surgical and medical management of various shoulder disorders and its impact on rehabilitation planning
- Identify and Learn to implement UE/ Shoulder outcome tools into daily clinical practice

Pre Course Attendance Lectures

Following lectures will be available 3/16/12 Complete prior to attendance. Print course completion documents and bring on 3/30/12 registration.

- **Advances Surgical Management of RC Disease** (1 hour)
- **Pathology, Diagnosis & surgical management of Arthritis** (.5 hour)
- **Diagnosis & Management Stiff/Pain Shoulder** (.5 hour)
- **Diagnosis & Classification of Shoulder Instability & SLAP lesion** (.5 hour)
- **Surgical Management Instability & SLAP lesion** (.5 hour)
- **Proximal Humeral Fracture: Classification & Surgical Management** (.5 hour)

We will not be able to allocate course CEU's for completion of this course portion until forms are received. We will modify CEU certificates by 3.5 hours at a \$25/certificate fee.

COURSE AGENDA- Shoulder Disorders

Day 1: Friday, March 30, 2012:

- 1:00 pm Registration & Pretest
- 1:30 pm Functional Anatomy & Biomechanics of the shoulder
- 2:00 pm Biomechanics and the Role of the Scapula in Shoulder Disorders
- 3:00 pm An algorithm for shoulder Rehabilitation
- 3:45 pm Questions/Discussion/Break
- 4:00 pm Impairment /Functional measures for clinical decision & document outcomes
- 4:30 pm Clinical Exam of the Shoulder (lab)
- 6:00 pm Adjourn

Day 2, Saturday March 31, 2012:

- 7:00 am Registration / Continental Breakfast
- 7:30 am Questions RC surgical lecture Rehabilitation after RC surgery: clinical considerations based on size of tear
- 8:45 am Questions arthritis lecture
Rehabilitation for arthritis & arthroplasty
- 9:30 am Questions/Discussion/ Break
- 9:45 am Questions Stiff /Painful Shoulder Rehabilitation of Stiff/ Painful Shoulder
- 10:30 am Questions SLAP lecture Diagnosis & Classification of Shoulder Instability and SLAP Lesions
- 11:00 am Non-operative rehabilitation of instability & SLAP lesions
- 11:30 am Rehabilitation following Shoulder Stabilization and SLAP Repair
